Hello God bless you. Yours affectionately wherever you are this time.

And I hope that God Almighty will spill many blessings upon your life. The reason for this letter is to say that your support was what helped me to finish my school. And I hope to continue with the Favor of God and your help to continue in the university. It was a great year, I do very well with my classmates in school and thank God all of my classmates passed their grades also. I was very happy on Christmas but could not stay with my parents and family. But God is my best company. Thanks for all that you give me. God bless you. Sincerely. Alba Luz
